Theoretical Coverage:	12-13 m <sup>2</sup> /L/coat	Solid Content: (by weight)	>50%
Dilution:	Preferable not dilute for best performance. If necessary, it can be diluted with not more than 5% volume of total consumption paint. (Dilution ratio may be adjusted in different surface condition)	Packing:	1L / 4L
Dry Film Thickness:	30µm	Shelf Life:	36 months in sealed original packaging stored at room temperature and shaded place.

# **Nippon Paint Kid's Odour-Less All In One Art Paint**

---

## **Recommended Painting System**

Sealer/Primer: One coat of Odour-less Primer or Odour-less Colour Sealer

Top Coat: Two coats of Kid's Odour-Less All In One Art Paint

## **Surface Preparation**

All surface must be clean, dry and free from oil, grease, dirt, contaminants and loose materials.

Dirt/Powder: Clean with damp cloth. Mild detergent may be used.

Paint: Remove unstable or old film by high-pressure wash, or scraper whichever is appropriate.

Plaster: Remove by chisel or power grinder. Replaster to unstable surface with an approved mortar mixture.

Moisture: High moisture causes paint defect. The moisture content of substrate should be less than 6% or 19 determined by Protimeter. All water seepage must be checked and rectified.

pH Value: pH value should be less than 10.

Fungus: Remove by high-pressure wash & treat with Nippon Paint Anti-Fungus Solution

Oil/Grease: Clean off with mild detergent and a little solvent. Wash thoroughly to remove all trace.

✧ **Ensure fresh air ingress while applying and before dry done**

✧ **High humidity and cool temperature will result in longer drying time**

## **Limitations**

Avoid painting when the temperature is below 5°C or the humidity is over 85%. Do not paint when raining and rain is expected during painting or drying process.

## **Clean Up**

Wash painting tools with water immediately after use.

## **Safety Information**

Keep out of reach of children. If medical advice is needed, get the product container or label at hand for easy reference.

Be aware of sanding dust / spray mist. Protective gloves, eye or face protection are highly recommended. Keep away from sparks, heat, open flames and any other ignition sources.

Eating, drinking and smoking should be prohibited in areas where the material is handled, stored and processed.

In case of eye contact, rinse immediately with plenty of water. For splashed skin, clean thoroughly with soap and water. Seek medical attention if indication persists.

If you experience difficulties on breathing, leave applied area and obtain fresh air. If difficulties continue, immediately get medical attention.

Product must always be stored in a ventilated, cool and dry place.

Tightly close product container after each use.

## **Flash Point and Ignition Point**

Flash Point: N/A

Ignition Point: N/A
